COVER LETTER

March 15, 2019

Launch Potato
111 East Atlantic Avenue
Delray Beach, FL

APPLICANT FOR FRONT-END DEVELOPER

Hello LP Team,

I'm a Full Stack Web Developer with a passion for Front End Design. My background in Fine Arts gives me an edge in crafting websites and applications that are aesthetically and compositionally sound; while my experience in Management and Entrepreneurship provides problem solving and communication skills that make me an ideal candidate for your position as a Front-End Engineer. I have experience working remotely and have the discipline required to stay focused and get the job done.

With hands-on-experience using React.js, Node.js, HTML5, CSS3, Git, and JavaScript, I can bring the skills necessary to build cleanly coded, user focused web applications to your team. I'm a constant learner who feverishly seeks out new inspiration and tutorials in my spare time.

I'm not looking for just a job, I have had plenty of those, this is a career for me. I want to be a part of a team that shares the same appreciation for a work-life balance, a pursuit of craft, and a desire to build amazing applications and websites. Launch Potato expresses these same values and I want to be a part of it.

I've attached a copy of my resume that details my experience, along with links to the various websites and applications I've had the honor of working on. I can be reached anytime via my cell phone, 254-640-2904, or via email at dustinmcgilvray@gmail.com.

Thank you for your time and consideration. I look forward to speaking with you about this opportunity.

Sincerely,

Dustin McGilvray
